

PRINT YOUR DIANOSZ CHIP

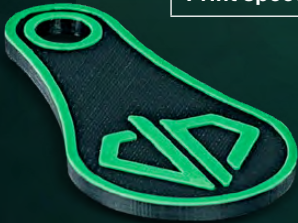

Looking for your first printing project? What about a trolley token? With the practical DIANOSZ key ring you can quickly and easily unlock your shopping trolley – without coins.

The model is available for download as STEP, STL and 3MF.

We have achieved very good results using these printing parameters:

Diameter:	0.4 mm
Layer thickness:	0.15 mm
Filament:	Standard PLA 1.75 mm
Nozzle temperature:	200-220 °C
Pressure print bed:	40-60 °C
Print speed:	up to 200 mm/s
